(a) Highlighting the salient features of Balance Sheet, President RWA expressed trepidation that the Funds State after paying back the accumulated loan taken by RWA(Sy Cr) may appear in 'Green', however, taking into consideration the Inflation, Labour Codes, Minimum Wages, mandatory allowances to the Employee, will lead to substantial increase in Direct Expenses. This Additional Financial Burden was a matter of Concern and necessitates Increasing the Revenue.

(b) RWA EC thus, made a suggestion to increase the RWA Subsc to 7500/7000 per Fy for Owners and proportionately for Tenants & Peripherals. However, it was informed that only a few No of Tenants were paying the Subsc. This is not helping our cause.

(c) A Member suggested that the Tenants on their Entry itself be asked to pay the Subsc. RWA EC Informed that a 'Welcome Note'(Hand Out), is handed over to all the Owners/ Tenants, with an Aim to familiarise with the A block community living, Norms and obligations.

(d) The Onus lies on the Owner to ensure RWA Subsc Is paid by Tenants.

(e) A few members were however, Reluctant, of raising RWA Subscription and instead suggested a drive for collection of Subscription from Non Payers, as Funds raising campaign.

6. Agenda V :Points from RWA EC

(a) **Social Inclusiveness**, Parental Guidance for Children Growth ,Workshops like ‘Manthan’ ,innovative models to instil Children Developmental skills , encourage Creative ability for learning, should be given due importance by active participation.

(b) **RWA Website** . The Website , developed 8 years ago by one of our RWA EC Member , also Chief IT Cell, is a Professional Attachment dedicated to the Residents as a Social Service . It has Wide Scope for incorporating Security related Application Software & building Data Base. Lack of Utilisation the website by Residents is disappointing.

(c) **Situational Awareness** .The relevant Information updates are available in abundance. It is unfortunate that the information is not being gathered nor efforts made to get acquainted with Resedential complex. . RWA Officials in the Help Desk are generally available for interaction everyday. However, the RWA Notifications/information/ important Civic Admin Circulars texted in in Official WhatsApp Gp from to time ,are not Read or ignored . Instead ,speculations ,manufacturing own Narratives are on the Rise.

(d) President, RWA expressed serious concern on ‘Lack of Awareness’ as an Excuse despite having all the facilities to remain updated. This ignorance is not going to benefit anyone.

(e) **Open Gym** . It was yet again informed that the Gym installed in Central Park has yet not been declared 'Open' by RWA because of certain structural flaws & non compliance of Safety Standards , Failure to provide "Dos & Dents" Instructions Display Boards for each equipment is also an Issue. The Gym equipment is meant to Exercise for strengthening specific muscles of the Body after mandatory Physical Warm up. Discrepancies need to be addressed by the Supplier of Open Gym Equipment and Jointly inspected by Noida Authority Engineers for remedial Action taken. Its only then the Open Gym will be offered to the Residents for Use. If Children /Adults/Elderly are using the Gym Equipment for Fun or as 'Jhoola' ,they would be doing so at their own Risk. RWA will not be responsible for any Damage caused to the Equipment or any physical injury sustained . Noida Authority has been apprised of RWA's concern from time to time .During the Site Visit of AD Hort, APE Hort Civil ,late last year, this matter was again projected to the Authority for required Action

(f) **Children/Jhoola Park**. During the same Site Visit , it was assured by Noida Authority Officials that all Jhoola Items will be replaced with new equipment & Children Park will be properly re-developed.

(g) **A 51 Ground**. PVVNL/UPPCL have been asked to take control of the Area for the ongoing modernisation Project Works and ensure Safety & Security of Equipment and personnel.It has been clearly intimated to Power Dept that RWA will in no way be responsible for any damage to Electrical Equipment, Accessories existing or stored during the Project ,theft, Power safety violations or Physical Injuries to personnel who may be using the Ground .

(h) **Security of the Complex**. Resident's Participation in strengthening the Security Apparatus & System was sought. There were no volunteers however, to assist the RWA Team even once in a while.

7. Agenda VI. Points from Members.

- (a) **Profiles of RWA EC Members** should be updated in the WebSite. This was Agreed to.
- (b) **Side Gate, No 3.** Two Wheelers With goods purchased From Nithari Market or elsewhere should be allowed to move through Side Gate 3. This was **Not Agreed to**. Side Gates are meant for pedestrians movements only and the Security Drills will be followed.
- (c) One of the Member's 'complaint' that RWA has been sabotaging Residents contributory efforts in Watering A 51 ground, was strongly refuted with an Advise to refrain from making such baseless in a Formal forum .

Concluding Remarks

This RWA Team is indebted to Senior Residents , former RWA Team Members, for their guidance. The co-operation of The Residents too, is well appreciated.
